This user-friendly machine is both reliable and durable. It compacts asphalt, emulsions, soils, and concrete in compliance with AASHTO T312 and ASTM D6925.

It is capable of producing AMPT samples and handling the special requirements of rubber mixes.
# G2 Gyratory Compactor

## Specifications
- **Power:**
  - 115 VAC, 12A, 50/60 Hz, 1 ph
  - 230 VAC, 6A, 50/60 Hz, 1 ph
- **Dimensions:** 34.5" W x 35.5" D x 54" H
- **Weight:** ≈ 880 lbs
- **Drive System:** Electro-Mechanical
- **Applied Pressure:** 200 – 999 kPa
- **Angle of Gyration:** 0.0 – 1.50°

## Data
- **Specimen Height**
- **Angle of Gyration**
- **Consolidation Pressure**
- **Gyration Number**
- **Gyratory Shear**

## Data Handling:
- 2 USB Ports, 1-Network Connector
- Internal Storage for 20 tests

## Compliance/Standards
- AASHTO T312
- ASTM D6925

## Accessories
- Extruder Funnel
- Mold Assemblies
- Load/Height Calibration kit (ISO & non-ISO)
- Specimen Conversion Kits (100mm and 4”)
- Specimen Lift Handle
- Printer and Cable
- Paper Disks (100mm and 150mm)
- Cooling Fan
