Notice of Temporary Closure Due to COVID-19

Dear Pine Customer,

The health and safety of our employees and our customers are of utmost importance to Pine Test Equipment. In accordance with the requirements set by the State of Pennsylvania and the recommendations of the Center for Disease Control, Pine Test Equipment will be operating at a very limited capacity until further notice. Pine Field Service Technicians will not be traveling to service or calibrate equipment. Laboratory and in-house calibrations will be accepted, but lead-times will not be provided or guaranteed due to the fluidity of the COVID-19 situation. Technical support will be available. We will work to provide repair parts the best we can.

Once we resume normal operation, annual on-site gyratory compactor and test press calibrations will be rescheduled by priority of the oldest expired calibration. Thank you for your patience and understanding during this difficult time. We look forward to working with you in the near future.

We will inform you when we return to standard business practice.

Sincerely,

A handwritten signature in black ink that reads "Ryan Gerner". The signature is fluid and cursive, with the first name "Ryan" and last name "Gerner" clearly legible.

Ryan Gerner

Service Coordinator
