

NOTE: Physically changing the angle of gyration should be a rare event. Keep careful records of any changes made to the angle of gyration.

A	B	C	D	G	
Angle of Gyration Adjustment Log Sheet			Previous Angle Setting	New Angle Setting	Comments
Initials	Date	Time	(degrees)	(degrees)	
example	17-SEP-08	11:06 AM	1.235	1.254	After three heavy paving seasons, the angle began running a bit low, so after consulting with Pine Test Equipment, Inc., the angle was adjusted to a higher setting.
